

WHAT IS CLAIMED IS:

1. An ergonomic tool box comprising:
 - (a) an elongated hollow base with one of the sides of the base being indented inwardly towards the interior of the hollow base;
 - (b) a handle disposed upwardly from the hollow base; and
 - (c) at least one support for the handle extending upwardly between the base and the handle.
- 10 2. A tool box as claimed in claim 1 wherein the base has longitudinal and lateral sides and one of the longitudinal sides is inwardly indented.
3. A tool box as claimed in claim 1 wherein the indentation is 1/4 to 1/2 of the width of the hollow base.
- 15 4. A tool box as claimed in claim 2 wherein the handle is parallel to the base and extends in a longitudinal direction.
5. A tool box as claimed in claim 4 wherein the handle is about 18 inches above the bottom of the base.
- 20 6. A tool box as claimed in claim 2 including tool receptacle holes disposed spatially in the interior of the hollow base.
- 25 7. A tool box as claimed in claim 2 including a second handle and at least one handle support disposed at an elevation lower than the first handle.
8. A tool box as claimed in claim 7 wherein the height of the second handle is between 1/4 and 1/2 of the height of the upper handle.
- 30 9. A tool box as claimed in claim 7 wherein the first handle is aligned with the longitudinal centre-line of the box and the second handle is offset laterally from the first handle.
- 35 10. A tool box as claimed in claim 9 wherein there are spaces between the second offset handle and the adjacent lateral sides.

11. A tool box as claimed in claim 1 wherein the inwardly indented side is curved and has a radius of curvature of approximately 3 feet.
12. A tool box as claimed in claim 1 including two supports for the handle, said
5 supports having an "A" configuration with hollow interior.
13. A tool box as claimed in claim 6 wherein the tool receptacles are deployed spatially in front and rear ledges which extend longitudinally on the interior sides of the hollow base.
10
14. A tool box as claimed in claim 13 wherein the rear tool receptacle ledge is spaced from the rear wall of the hollow base.
15. A tool box as claimed in claim 2 including a flexible rod disposed longitudinally within the interior of the hollow base.
15
16. A tool box as claimed in claim 7 wherein the height of the base is approximately 1/3 the height of the first handle.
20
17. A tool box as claimed in claim 3 wherein the width of the base of the tool box is between 8 and 12 inches.
18. A tool box as claimed in claim 17 wherein the length of the box is approximately 3 feet.
